

# Maximize fuel savings. Minimize downtime.

Energy Guard™ Aerodynamic Solutions are the ultimate answer to reducing your fleet's total cost of ownership. Designed to optimize airflow, these solutions not only deliver exceptional fuel savings but also reduce greenhouse gas emissions—helping your business and the planet thrive. Built to last with no moving parts, Energy Guard™ makes maintenance easy, letting you focus on other areas of your business.

## Discover the Energy Guard™ difference.

### Engineered For Durability

- Built to withstand forward and backward impacts, providing long-lasting protection against damage.
- Fewer replacements mean less downtime and fewer headaches for your operations.

### Exceptional Fuel Savings

- Proven aerodynamic designs that decrease drag, cutting fuel costs and improving your bottom line.
- Customized solutions tailored for fleets of all sizes to maximize ROI.

### Transparent Testing

- The product you see is the product you receive—no misleading test results. All designs undergo real-world, rigorous testing to deliver reliable performance every time.

### Made in the USA

- Designed, engineered, and manufactured in the US. No supply chain delays, or quality compromises—just reliable products made with American expertise.

### Industry-Leading Warranty

- Backed by the most robust warranty in the industry, ensuring peace of mind and long-term value.

# Take your fleet to the next level.

Energy Guard™ delivers industry-leading value, ensuring durability, sustainability, and maximum savings. It's time to take control of your fleet's costs and get real results.

**Improved Fairing Design**  
Drag-Reducing,  
Flush-Mounted Trailer  
End Fairings

## Quick ROI.

With Energy Guard™, you benefit from unbeatable savings and value across four critical areas:

<b>Fuel Efficiency</b>	Lower fuel costs through aerodynamic excellence.
<b>Durability</b>	Higher quality brackets, materials, and hardware mean longer-lasting, impact-resistance, and less maintenance.
<b>Regulatory Compliance</b>	Options to meet CARB standards for your fleet's specific needs.
<b>Branding Opportunities</b>	Marketing to last the life of your product. Custom kits available to showcase your logo.
